34 total fundraiser projects
61 total advocacy platforms
Kipchumba B Luka teaches diabetes foot care to a patient and her family at Embu Diabetes Clinic in Kenya.
2002 – 2020: WHERE DID THE MONEY GO - INTERVENTION AREAS

26% PRIMARY PREVENTION PROJECTS address the determinants of health and diabetes risk factors

66% ADVOCACY PLATFORMS raise the priority of NCD prevention and control within global, regional and national agendas

8% CARE PROJECTS strengthen national health systems to sustainably improve diabetes care and prevent diabetes complications via integrated care
WDF has partners in more than 100 countries, and at all levels – from grassroots organisations to national, regional and global entities.

WDF supports projects that are demand-driven, locally formulated and owned, and integrated into existing health systems where possible.

For every euro provided by WDF, project partners raise approximately 2 euros in cash or as in-kind donations from other sources.

For more detail about individual WDF-supported projects, as well as distributions to intervention areas and regions, visit worlddiabetesfoundation.org

*The relatively large share of funding to Africa reflects WDF’s poverty focus.*
WDF was founded in 2002 as an independent foundation by Novo Nordisk A/S, and today is a leading global funder of diabetes prevention and care projects in low- and middle-income countries.
