OUR PROJECTS 2021
WDF fundraiser project Basic Units for Diabetes Care brings diabetes services to poor areas of Lima and Arequipa, Peru.
2002 – 2021: WHERE DID THE MONEY GO - INTERVENTION AREAS

- **25%** PRIMARY PREVENTION PROJECTS address the determinants of health and diabetes risk factors

- **67%** ADVOCACY PLATFORMS raise the priority of NCD prevention and control within global, regional and national agendas

- **8%** CARE PROJECTS strengthen national health systems to sustainably improve diabetes care and prevent diabetes complications via integrated care
2002 – 2021: REGIONAL DISTRIBUTION

WDF has partners in more than 100 countries, and at all levels – from grassroots organisations to national, regional and global entities.

WDF supports projects that are demand-driven, locally formulated and owned, and integrated into existing health systems where possible.

For every euro provided by WDF, project partners raise approximately 2 euros in cash or as in-kind donations from other sources.

For more detail about individual WDF-supported projects, as well as distributions to intervention areas and regions, visit worlddiabetesfoundation.org

*The relatively large share of funding to Africa reflects WDF’s poverty focus.

2017 – 2021: INCOME, DISTRIBUTIONS AND ADMINISTRATIVE EXPENSES PERCENTAGE

For the years 2017 to 2021, the percentages for income, distributions, and administrative expenses are as follows:

- **2017:**
  - Income: 6.8%
  - Distributions: 7.9%
  - Administrative: 7.3%

- **2018:**
  - Income: 6.4%
  - Distributions: 6.4%
  - Administrative: 7.5%

*Note: The administrative percentage is the same as the income distribution for 2018 and 2021.*
CUMULATIVE PROJECT RESULTS 2002-2021

- >20,000 clinics established / strengthened
- >50,000 teachers trained

Total fundraiser projects: 35
Total advocacy platforms: 64
WDF was founded in 2002 as an independent foundation by Novo Nordisk A/S, and today is a leading global funder of diabetes prevention and care projects in low- and middle-income countries.

From 2002 to 2021, the WDF provided 182 million euros in funding to 584 projects in 119 countries.

Since 2002, 450 WDF-supported projects have successfully completed, benefitting communities worldwide.
